# Don't Just Collect Certificates, Build a Career!

## Read This Once Before Joining Any Computer Course

For years, many institutes have charged heavy fees in the name of “**Computer Courses.**” In return, students often receive nothing more than a certificate—valued anywhere from ₹500 to ₹5,000—without gaining actual facilities or real skill development.

### Common Problems Students Face

#### **A Certificate Alone Doesn't Get You a Job**

In today's competitive era, a piece of paper is often useless without strong Practical Skills.

#### **Forgetting What You Learned**

Many students forget core concepts shortly after completing their course, leading to major struggles during actual job performance.

### Why D.P. Digital Computer Education is Different

#### **At D.P. Digital Computer Education**

At D.P. Digital Computer Education, we don't just sell courses—we believe in building a student's Future.

**यकीन मानिए बिना करियर के ना ही कोई इज्जत है और ना ही कोई सुख..!**
