01 | About Future Education

Future Education is a Computer, IT, Software and Spoken English education brand focused on practical, career-oriented learning. The organisation has been presented as established since 2008 and offers structured training programs designed for students, job seekers, working professionals and aspiring entrepreneurs.

2008	25,000+	7,000+	ISO
Established since	Students trained*	Job placements*	9001:2015

*Figures and certification details should be verified against the organisation's current official records before final public distribution.

Our Vision:

To build a trusted and respected education network that makes quality **Computer, IT and Skill Development education** accessible to students and professionals. We aim to empower learners with practical, career-focused knowledge and future-ready skills. Through continuous innovation and professional learning standards, we strive to create meaningful opportunities for students and entrepreneurs. Our vision is to expand a strong education network while maintaining **quality, trust and excellence** at every center.

Our Mission:

Our mission is to provide **affordable, practical and industry-relevant education** through professionally managed learning centers. We focus on structured courses, modern teaching methods and practical training that help students develop confidence and employability. We also support our franchise partners with academic, marketing and operational guidance. Through continuous improvement, we aim to create a sustainable ecosystem that benefits **students, educators and business partners**.

02 | The Franchise Opportunity

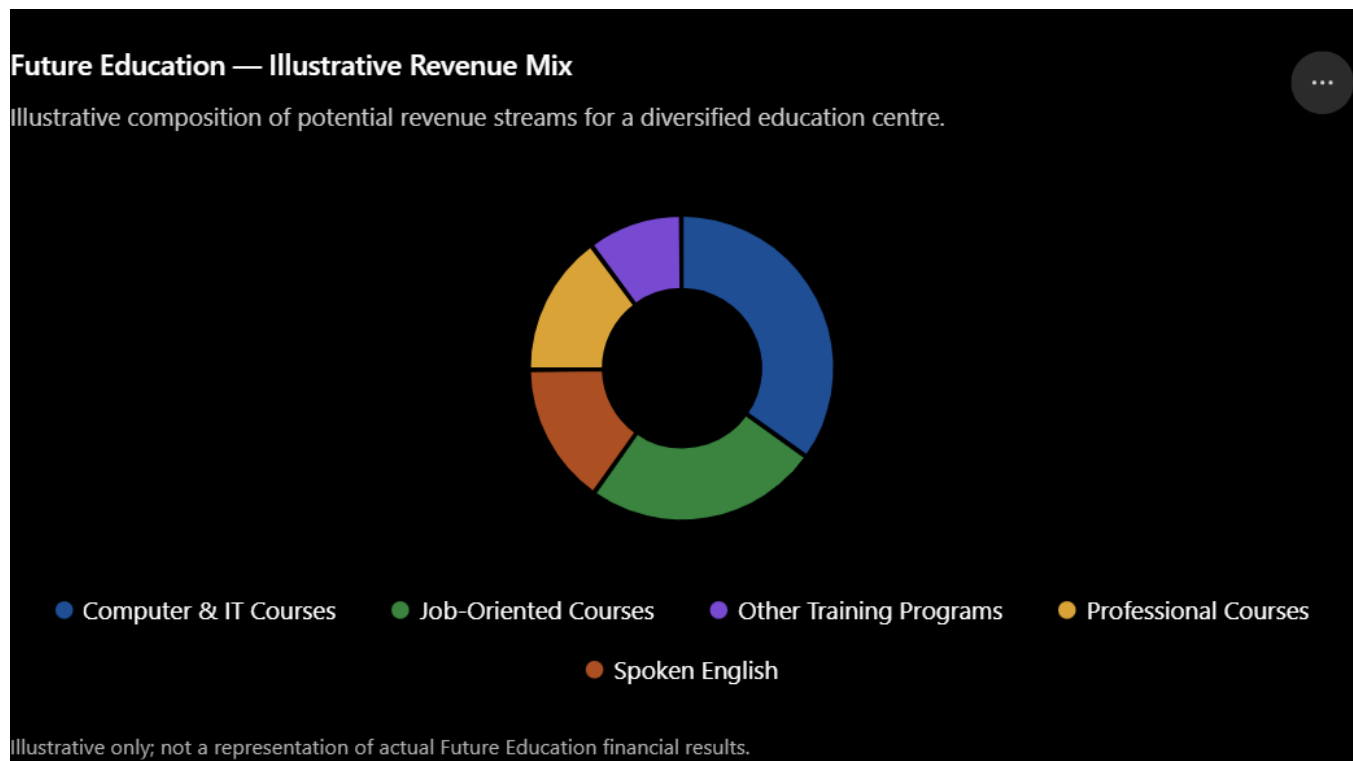

A Future Education franchise is designed for investors and entrepreneurs who want to establish a professional education and skill-development centre with the support of an established brand, structured courses and a defined operating framework.

A BUSINESS MODEL BUILT AROUND EDUCATION + SKILLS + LOCAL DEMAND

Future Education offers a flexible franchise model with multiple course categories designed to serve students, professionals and job seekers. A professionally managed center can build local visibility through digital marketing, local promotion and admission campaigns, while expanding its course portfolio can create additional growth opportunities. The model can be adapted according to the location, center size, investment capacity and target audience, with the aim of building a sustainable, long-term education business.

Who Can Apply:

The franchise opportunity is suitable for entrepreneurs, investors, education professionals and business owners who have the required investment capacity and a suitable location. Applicants should have a genuine interest in education, business development and student services, along with the commitment to operate a professional, quality-focused Future Education center.

03 | What Your Franchise Includes

What Your Franchise Includes:

A Future Education franchise provides a complete business support framework covering brand identity, academic resources, structured courses, marketing guidance, admission and sales support, branch setup and operational assistance. Franchise partners receive guidance for infrastructure, staff requirements, student management and local promotion, helping them establish and operate a professional education center. The objective is to provide the partner with the right systems, resources and ongoing guidance to build and grow the center successfully.

Brand & Identity	Use the approved Future Education brand identity and branch presentation standards.
Academic Support	Structured curriculum, course planning, academic guidance and learning resources.
Marketing Support	Guidance for local promotion, social media, digital campaigns and admission drives.
Admission & Sales	Processes and guidance for enquiry handling, counselling, follow-up and conversion.
Branch Setup	Planning support for location, classroom, computer lab, furniture, branding and presentation.
Staff Guidance	Support for faculty requirements, staff roles, training and branch-level coordination.
Operational Guidance	Practical systems for student handling, fee processes, attendance and routine administration.
Growth Support	Guidance to expand course offerings, student reach and local market presence.

04 | Course Portfolio

Course Portfolio:

Future Education offers a diversified portfolio of Computer, IT, Software, Cyber Security, Digital Marketing, Spoken English and job-oriented skill development programs designed for students, professionals and career seekers. This broad range of courses allows franchise centers to serve different learner needs, attract multiple customer segments and build a stronger local education market. The course portfolio can be adapted according to local demand, student requirements and approved center capabilities, creating opportunities for sustainable business growth.

Computer & Office: Microsoft Office, Advanced Excel, CCC and practical computer skills.

Accounting & Business Software: Tally Prime and related accounting/software training.

Software Development: Python, Web Development, Full Stack and software engineering programs.

Cyber Security & IT: DCS & CS, Advance DCS & CS and IT-focused career programs.

Digital & Creative Skills: Digital Marketing, Graphic Designing, Power BI and related professional skills.

Communication: Spoken English and communication-focused programs.

Career-Oriented Programs: Structured job-oriented programs designed around practical employability skills.

Portfolio Flexibility:

Future Education provides a flexible course portfolio that can be aligned with the specific needs of each location and target audience. The final selection of courses, fees, duration and certification structure may vary according to local market demand, student requirements and center capabilities. All courses and commercial details are subject to Future Education's approval and applicable academic standards, ensuring consistency and quality across the franchise network.

05 | Investment & Partnership Models

Investment & Partnership Models:

Future Education offers **flexible investment and partnership opportunities** designed to accommodate different investor capacities and business objectives. Partners can select a suitable model based on the proposed center size, location, infrastructure requirements and level of investment. Each model can define the respective **investment contribution, responsibilities, revenue or profit-sharing structure and support provided by Future Education**. Final commercial terms will be mutually discussed and documented in the official franchise or partnership agreement.

Future Education has previously discussed three illustrative investment levels for partnership opportunities. The figures below are presented as a proposed framework and must be finalised through the applicable franchise/partnership agreement before being offered to an investor.

Investment Level	Illustrative Profit Share	Positioning
₹1,00,000	08%	Entry-level partnership
₹5,00,000	40%	Standard investment partnership
₹10,00,000	80%	Higher-capital partnership

IMPORTANT: PROFIT SHARE IS NOT A GUARANTEED RETURN

Any investment, revenue-share or profit-share arrangement must be based on the final commercial structure, actual branch performance, operating expenses, responsibilities of each party and the signed agreement. The above figures should not be treated as guaranteed financial returns.

06 | From Enquiry to Grand Opening

01	Enquiry	Investor submits basic details and preferred location.
02	Discussion	Business opportunity, expectations and commercial model are discussed.
03	Location Evaluation	Proposed location and market suitability are reviewed.
04	Investment Selection	Appropriate investment/partnership model is finalised.
05	Agreement	Commercial and operational terms are documented.
06	Centre Setup	Infrastructure, branding, equipment and staffing are arranged.
07	Training & Preparation	Team receives required academic and operational guidance.
08	Marketing Launch	Pre-launch promotion and admission campaigns begin.
09	Grand Opening	The centre starts operations under the approved Future Education framework.

07 | Franchise Requirements

Franchise Requirements:

A Future Education franchise requires a suitable commercial location with the necessary infrastructure, computer systems, professional classrooms and computer-lab facilities. The franchise partner should arrange qualified faculty, counselling and administrative staff and actively participate in local marketing and admission activities. The centre must follow Future Education's brand, academic and operational standards, maintain proper student and administrative records, and remain committed to student satisfaction, ethical counselling and professional service.

- Suitable commercial premises in an accessible student-focused location.
- Infrastructure and computer systems according to the approved centre requirements.
- Professional classroom and computer-lab environment.
- Adequate faculty, counselling and administrative staff.
- Active participation in local marketing and admission activities.
- Compliance with Future Education brand, academic and operational standards.
- Timely maintenance of student, fee, attendance and administrative records.
- Commitment to student satisfaction, ethical counselling and professional service.

Investor / Franchise Partner Responsibilities:

The investor or franchise partner is responsible for the agreed investment, premises, infrastructure, staffing, local operating expenses and day-to-day management of the centre as specified in the final agreement. The partner is also expected to actively support marketing, admissions, student services and overall branch development. Future Education will provide the agreed brand, academic, marketing and operational support as defined in the official franchise or partnership agreement.

08 | Marketing & Business Growth

Marketing & Business Growth:

A successful franchise requires strong local visibility and consistent marketing to attract students and build brand awareness. Future Education can guide franchise partners in combining brand-level communication, digital marketing, social media promotion and location-specific campaigns. With regular admission activities, local outreach and effective lead follow-up, partners can strengthen their market presence and create opportunities for sustainable student growth and business development.

Growth Area	Recommended Activity
Digital Marketing	Instagram, Facebook, Google and local digital campaigns.
Lead Management	Fast response, telecalling, counselling and systematic follow-up.
Local Promotion	Leaflets, banners, seminars, school/college outreach and community promotion.
Referral Growth	Student and parent referrals supported through approved promotional programs.
Course Expansion	Introduce approved programs according to local demand.
Retention	Professional academic support and student engagement to strengthen reputation.

09 | Quality, Compliance & Partnership Standards

Future Education franchise centres are expected to maintain consistent standards in branding, academic delivery, student service, documentation and professional conduct. The purpose is to protect student trust and strengthen the reputation of the overall network.

- Use of brand identity only as authorised.
- Delivery of approved courses and curriculum.
- Transparent fee communication and professional counselling.
- Proper student records and administrative documentation.
- Professional classroom and laboratory standards.
- Compliance with applicable laws, regulations and contractual obligations.
- Periodic review and corrective action where required.

Quality, Compliance & Partnership Standards:

Future Education franchise centres are expected to maintain consistent standards in branding, academic delivery, student service, documentation and professional conduct. Every centre should provide a professional and positive learning environment while following approved academic and operational guidelines. These standards help ensure quality, transparency and consistency, protect student trust and strengthen the reputation of the entire Future Education franchise network.

10 | Start Your Franchise Journey

INVEST IN EDUCATION. BUILD A BUSINESS. CREATE OPPORTUNITIES.

If you are looking to start your own Computer, IT & Skill Development Centre, Future Education offers an opportunity to build a professional education business with structured academic programs, brand support and business guidance. Share your preferred city or location, investment range, available premises and business objectives with our franchise team so we can understand your requirements and discuss the most suitable opportunity. Our team can guide you through the franchise model, location evaluation, investment structure, infrastructure requirements, course portfolio, staffing, marketing strategy, admission process and centre setup. From the initial discussion to the launch of your centre, we aim to provide the necessary guidance to help you establish a well-planned, professionally managed and growth-oriented education centre. Join the Future Education network and take the first step towards building a long-term business while contributing to the development of skills, knowledge and career opportunities in your local community.
