DESIGNED & BUILT IN INDIA

Engineered and manufactured in India for corporate and institutional requirements — Supported Pan-India

Why RDP Laptops

Corporate and institutional buyers need reliable, standardised laptop portfolios with predictable pricing and minimal SKU complexity. BV2 Laptops deliver consistent performance across teams with simple selection.

That is why we have launched a 3-series laptop portfolio (Entry, Mainstream, Pro) with fixed standard SKUs — Intel and AMD options at every tier.

Our approach: 80% standard SKUs + 20% project customization
So customers can choose quickly from ready configurations (RAM/SSD/OS/Warranty/Connectivity) and still customize for large rollouts

Standard SKUs (Intel + AMD)

Entry: 3 Intel + 3 AMD (14" / 15.6" FHD)

Mainstream: 3 Intel + 3 AMD (14" FHD+/2.2K / 15.6" FHD+)

Pro: 3 Intel + 3 AMD (14" FHD+/2.8K / 16" QHD+)

Total: 18 standard Laptop SKUs

Project Customisation

RAM upgrades (16/32/64GB)

SSD upgrades and dual storage

Wi-Fi 6E, LTE/5G options

Security features (IR camera, fingerprint, TPM)

Warranty extensions (3Y onsite recommended)

Standard Bundling Options: Laptop-only or full kit (bag, mouse, USB-C LAN dongle, docking options)
